

LOCAL SEO PROOF FOR SERVICE BUSINESSES

Turn Completed Jobs Into Local SEO Proof.

FieldPins turns everyday completed work into crawlable, city-tagged proof that strengthens rankings, trust, and lead generation.

Your Best Local SEO Is Already Happening. It Just Never Leaves the Truck.

WHERE THE PROOF LIVES TODAY

- Technicians' camera rolls
- Group-text photo threads
- Job sites no customer sees

"send me pics from the Hernandez job" – 4:52 PM

WHAT THE MARKET SEES

- ✗ A website with two-year-old photos
- ✗ Thin, generic city pages
- ✗ No fresh signal for Google or homeowners

Last updated · 2024

The work is the marketing. It just never makes it past the job site.

WHY NOW

Local Search Rewards Proof, Not Just Promises.

Generic city pages don't earn rankings or trust. Fresh, dated, city-specific proof gives homeowners and search engines evidence a business actually works there — and AI search now cites that same proof.

FieldPins supports stronger local relevance and content freshness. Rankings depend on many factors.

One Job Becomes Local Proof Everywhere It Counts.

One real job, captured once, becomes proof across every surface that helps a business rank and convert.

From the Field to Ranked Proof in Three Steps.

01 / Capture

A photo, the service, and the city — captured on site in under a minute. Nothing new to learn.

 Add job photo

02 / Approve

Owner, manager, or agency reviews in one click. Nothing goes public without a yes.

03 / Publish

The job publishes as crawlable, schema-tagged proof across the website and city pages.

• Live on </hydrojetting-temecula>

Your team only touches it once.

Built to Rank, Not Just to Look Good.

- ✓ Crawlable, server-rendered HTML — not a JavaScript-only widget
- ✓ Geo-tagged Service schema, validated on live client pages
- ✓ Fresh, dated, city-specific proof feeding service and city pages
- ✓ Internal links tying local pages together
- ✓ Privacy-safe publishing

Schema clarifies real work — it is not a standalone ranking lever.

LIVE ON A REAL CLIENT PAGE

Show the Work. Protect the Customer.

PUBLISHED PUBLICLY

- ✓ Service type
- ✓ City and state
- ✓ Completion date
- ✓ Approved job photo
- ✓ Plain-language description

NEVER PUBLISHED

- ✗ Street address or unit
- ✗ Customer name, phone, email
- ✗ GPS or exact location
- ✗ Technician notes
- ✗ Faces, plates, paperwork in photos

Proof of activity never comes at the customer's expense.
